BECAUSE WE CARE

PROTECTING THE OCEAN WITH ECO-FRIENDLY PACKAGING

Over the past years, Mares has been on a mission to reduce the use of unnecessary plastic in our packaging in an effort to better care for the planet we call home, because if we don't take care of our oceans, who will?

As divers, respecting the ocean is a fundamental rule, but we feel the call to set a higher standard at Mares. We have adopted concrete measures to reduce unnecessary plastic in our company, from removing most of the outer film coatings on our packaging, to using 100% eco-friendly mask boxes. We also encourage our employees, collaborators, and suppliers to do the same. To safeguard what we love most, we must do our part to preserve all bodies of water now and for future generations.

The initial steps have been taken, with non-plastic alternatives gradually being introduced throughout all our lines, hoping in the near future to replace plastic completely.

Join us in our quest to protect the blue planet.

Since 2007, Mares - as a company of the HEAD Group - has been partnered with global environmental charity Cool Earth. This partnership has resulted in a worldwide environmental program - the first of its kind for a sporting goods company. The simple idea behind Cool Earth is that rainforests are worth much more left standing than they are cut down for timber or burnt to clear land for cattle ranching. Clearing just an acre of rainforest can emit a staggering 260 tonnes of CO₂. Cool Earth works directly with local communities and NGO's around the world to help them protect their forests and halt the impact of deforestation on climate change.

WE SUPPORT COOL EARTH, SO SHOULD YOU.

Go to coolearth.org and learn more about what you can do to help safeguard the planet's essential ecosystems.

MARES S.p.A

contributed to the following savings in 2022:

4.206 kg	CO2 Equivalents
12 kg	phosphate equivalents
158 GJ	primary energy
15 kg	sulfur dioxide equivalents

This quantity corresponds approximately to the CO2 emissions filtered from the air by 4,206 m2 forest in one year

SUSTAINABILITY WITHIN THE OFFICE

Mares HQ now uses vending machines with paper cups and wooden spoons. All employees have re-usable water bottles and recycling areas have been placed throughout the office environment.

100% ECO-FRIENDLY MASK BOX

Mares mask boxes are now molded from sugar cane pulp. Reusable. Recyclable. 100% eco-friendly. Sugar cane pulp is the new cardboard. These new sugar cane fiber-based mask boxes are naturally white, which means no bleaching, and are easier to produce, which lowers water consumption and pollution.

REUSABLE MESH BAGS

Mares mask boxes are now molded from sugar cane pulp. Reusable. Recyclable. 100% eco-friendly. Sugar cane pulp is the new cardboard. These new sugar cane fiber-based mask boxes are naturally white, which means no bleaching, and are easier to produce, which lowers water consumption and pollution.

SUSTAINABLE SHIPPING

We are also significantly cutting down the use of plastic when shipping packages, with no more plastic air cushions or bubble wrap used as filling material.

GREEN 'BIO-PLASTIC' POLYBAGS

The new way to package all Mares fins and snorkels.

75 YEARS = OVER 75% DURABLE YET SUSTAINABLE

We have surpassed our aim of reducing plastic packaging by 70% since our 70th anniversary. Now Mares is proud to say our packaging is over 75% recyclable, with some product lines reaching 100%!

Replacements perform just like standard plastic.

NO PVC

Mares is replacing PVC packaging stickers with paper ones.

MARES REDUCES ITS ENVIRONMENTAL FOOTPRINT

by using ethanol extracted from sugar cane instead of crude oil for 'bioplastic' polybags, which significantly reduces carbon emissions.

SAY NO TO FILM COATINGS

Mares has removed most of the outer plastic film coatings on our packaging.

SAY GOODBYE TO PLASTIC CLAMSHELL PACKAGING

Mares aims to eliminate all plastic clamshell mask packaging.

CORN-BASED BAGS

The new eco-friendly option for wetsuit packaging.

COLOR MATCHING

X-WING FOOT POCKET COLORED

Code : **420931**

- NO BLADE SIDE RIBS
- VERY LIGHTWEIGHT - SIZE 42-43 WEIGHS 270G
- NEW SOFTER MATERIAL
- PREFORMED 30° ANGLE
- ERGONOMIC, ULTRA-REACTIVE FOOTPOCKET MADE IN 2 MATERIALS, DESIGNED TO TRANSMIT ENERGY TO THE FIN IN THE MOST EFFECTIVE WAY, OPTIMIZING EFFORT AND IMPROVING PERFORMANCE
- STIFFENED SOLE TO AVOID DEFORMATION OF THE FOOTPOCKET UNDER BLADE LOAD AND ROTATION IN THE LONGITUDINAL AXIS
- DESIGNED TO BE WORN ALSO WITHOUT NEOPRENE SOCKS
- PACK INFO: SOLD SINGLY
- AVAILABLE IN BLUE, OLIVE-GREEN AND PINK

TECHNICAL FEATURES

Sizes	036 - 038 - 040 - 042 - 044 - 046

X-WING

FOOT POCKET

BI - MATERIAL

The new variable thickness footpocket provides the best of both worlds.

The thicker "X" areas of the footpocket are designed to transmit the energy produced from the leg into the blade with zero dispersion and loss of energy

The footpocket is constructed of a soft material ensuring maximum comfort and fit

The lateral side ribs have been shortened to a minimum, exploiting the best of the elastic and mechanical properties of the blade

HEEL TAB

RIGID FRAME

COMFORTABLE,
FLEXIBLE FOOT
POCKET

BLADE ANCHORING
SYSTEM

FASTENING PLATE

Sizing of the foot-pocket is measured on actual barefoot size, including a smaller range for more fitting options.

The new X-WING foot-pocket is among the lightest in the market and designed to exploit our new 30-degree incline blade, resulting in pure comfort and maximum thrust / performance.

X-WING C-EVO

Code : 420423 SFT/MED

- BLADE PRODUCED WITH 100% PRE-IMPREGNATED CARBON TO ENSURE HIGH QUALITY AND PROCESS REPEATABILITY
- T700 CARBON WITH FIBERS WOVEN UNIDIRECTIONALLY TO REDUCE SIDE FLECTION
- FIBERS CROSS OVER EACH OTHER FEW TIMES, INCREASING THE RESPONSIVENESS OF THE BLADE
- VARIABLE BLADE THICKNESS AND HIGH-PERFORMING PARABOLIC FLEXION
- THE BLADE IS 190 MM WIDE AND 750 MM LONG
- HIGH-QUALITY MANUFACTURING PROCESS
- VARIABLE SIDE RIBS SUPPORT AND OPTIMIZE CHANNEL THRUST AND FLEX
- AVAILABLE WITH A SOFT OR MEDIUM STRENGTH BLADE DEPENDING ON THE USER'S
- WEIGHT
- LONG FINS ADAPTED TO A HIGH KICKING FREQUENCY FOR FREEDIVING AND DEEP
- SPEARFISHING
- 30° BLADE INCLINATION RELATIVE TO THE FOOT POCKET
- THE X-WING FOOT POCKET IS DESIGNED TO BE WORN ALSO WITHOUT A NEOPRENE SOCK
- INTERCHANGEABLE BLADE CONSTRUCTION

POLYPROPYLENE FINS

Manufactured using a complex injection moulding process that makes it possible to achieve variable-geometric thicknesses, as with carbon and fiberglass blades.

This process allows us to make the blade soft and elastic in all the right places.
The new range of fins and blades are designed for every use and all types of divers,
from the freediver to the spearfisher,
while also offering dedicated blades in the women's market.

The blades are paired with our new foot pockets in matching colors
and new, increasingly soft and comfortable materials.
All the blades are at a 30-degree inclination from the foot
pocket, transforming the blade into a natural extension of
the leg while optimizing output, thereby decreasing
fatigue when swimming on the surface.

DIVE KNIVES

MAXIMUS & NEUTRON

Our multipurpose diver's knives are available in 2 sizes: **230mm** and **137mm**.

Blade thickness is 4mm, and both models feature a blade with a blunt tip, a screwdriver, a razor blade, a serrated edge blade, a bottle opener and a line cutter, but that isn't all!

Both knives come with a robust Cordura sheath with attachment loops for a belt and straps for arm or ankle attachment.

MINI MULTITOOL

SMARTY

The multitool's main features are:

- **TOTAL LENGTH OF 95 mm**
- **BOTTLE OPENER**
- **4 mm ALLEN KEY**
- **SCREWDRIVER**
- **4-6-8-13-14 mm SPANNERS**
- **AN ATTACHMENT LOOP**

DON'T BE WITHOUT YOUR SMARTY MINI MULTITOOL.
THE VERSATILE ADDITION TO YOUR DIVING EQUIPMENT!

MAXIMUS

Code : **415604**

- MULTIPURPOSE DIVER'S KNIFE
- BLADE AND HANDLE IN STAINLESS STEEL 440(W1.14116) WITH A PVD COATING TO PREVENT CORROSION IN THE WATER
- 55/56 HRX
- 4MM BLADE THICKNESS
- 230MM TOTAL LENGTH
- FEATURES A BLUNT TIP, SCREWDRIVERS, A RAZOR BLADE, A SERRATED EDGE BLADE, A BOTTLE OPENER AND A LINE CUTTER
- ROBUST CORDURA SHEATH WITH STRAPS FOR ARM OR ANKLE ATTACHMENT

NEUTRON

Code : **415605**

- MULTIPURPOSE DIVER'S KNIFE
- BLADE AND HANDLE IN STAINLESS STEEL 440(W1.14116) WITH A PVD COATING TO PREVENT CORROSION IN THE WATER
- 55/56 HRX
- 4MM BLADE THICKNESS
- 137MM TOTAL LENGTH
- FEATURES A BLUNT TIP, SCREWDRIVERS, A RAZOR BLADE, A SERRATED EDGE BLADE, A BOTTLE OPENER AND A LINE CUTTER
- ROBUST CORDURA SHEATH WITH STRAPS FOR ARM OR ANKLE ATTACHMENT

PURE

Code : **415629**

- 11.8 CM AISI 420 STAINLESS STEEL BLADE
- TOTAL LENGTH WITH HANDLE: 23 CM
- CURVED SIDE OF THE BLADE HAS A SMOOTH EDGE
- STRAIGHT SIDE OF THE BLADE HAS A SERRATED EDGE AND A LINE CUTTER
- NON-SLIP HANDLE THANKS TO THE OVERMOLDING THAT COVERS IT, INCREASING GRIP
- EASY RELEASE SYSTEM
- RIGID SHEATH CAN BE ATTACHED TO THE CALF OR THIGH USING THE PRACTICAL STRAPS PROVIDED

SMARTY MINI MULTITOOL

Code : **415808**

- EXCLUSIVE MARES DESIGNED MINI MULTITOOL
- THE PERFECT COMPACT TOOL FOR BASIC OPERATIONS
- TOTAL LENGTH: 95MM
- STRUCTURE: STAINLESS STEEL 440 (W1.14116) WITH A PVD COATING
- 55/56 HRC
- 4MM ALLEN KEY
- BOTTLE OPENER
- 44MM THICKNESS
- SCREWDRIVER
- 4-6-8-13-14 MM SPANNERS
- INCLUDES AN ATTACHMENT LOOP

MARES LAB

• BASIC SERVICE TECHNICIAN DIGITAL LEARNING COURSE

The highly interactive online digital learning course is delivered to the learner using the latest Educational Management System (EMS) technology. The EMS platform technology along with extensive use of video and graphic content enhances learning and retention of information and produces a highly enjoyable educational experience. The course is open to anyone, and can be accessed by contacting the local Mares Subsidiary or Distributor.

take this course as the first step to becoming a fully qualified Mares Service Technician, or if you simply want to learn the basics of regulator design and service and/or repair. This course is a prerequisite requirement for most MaresLab Skill Based Training Courses. Completion of this course does not qualify you to service or repair Mares equipment.

The course goals are to :

1. Establish your basic knowledge level relating to regulator service and repair procedures.
2. Provide you with basic information about regulator design and function.
3. Provide you with Mares specific information relating to service and product information.
4. Help prepare you for success in one or more Mares Lab Skill Based Training Courses.

Prerequisite Requirements:

Course is open to anyone.

• MARES LAB SKILL BASED TRAINING COURSES

- MARES SERVICE TECHNICIAN
- MARES DIVING CENTER SERVICE TECHNICIAN
- MARES SPECIALTY SERVICE TECHNICIAN

After successfully completing the Basic Service Technician Digital Learning Course, you are now ready to progress to the skill based training phase of becoming a qualified Mares Service Technician. These courses are conducted by qualified Mares Lab Instructors and consist of comprehensive hands-on training exercises. During these courses you will have opportunity to perform multiple service procedures on a wide variety of Mares products, including multiple complete regulator service overhauls on various Mares regulators. You'll also gain valuable experience in using the Mares Service Manual and Spare Parts Catalog during routine and special service procedures. Skill based training courses are designed to :

1. Provide comprehensive, real world, hands-on training about how service and repair Mares product.
2. Enhance the knowledge gained from the Basic Service Technician Digital Learning Course.
3. Develop skills and abilities to the level required to successfully perform service and repair procedures on Mares products.
4. Prepare you for a successful full or part-time career as a Mares Service Technician.

- **MARES LAB SKILL BASED TRAINING COURSES**

This course is designed for technicians who plan to work in a Mares Diving Center, such as a resort or diver training facility, that has limited or no retail sale of Mares equipment. Course duration is 1 day and provides skill based training related to the Mares Diving Center product line. Take this course if you plan to work in a Mares Diving Center and are interested in being able to service and repair your affiliated Mares Diving Center owned Mares products. **Successful completion of the Diving Center Service Technician Course qualifies you to service and repair ONLY your affiliated Diving Center OWNED equipment used in rental and/or training programs.**

Prerequisite Requirements:

Completion of the Basic Service Technician Digital Learning Course. Be affiliated with an Authorized Mares Diving Center.

Be approved by the affiliated Mares Diving Center to attend the course.

Product specifications and characteristics listed in this catalogue may be subject to changes by Mares without notice.
